John Owuor

Software Developer
Nairobi County, Kenya

Summary

I have 10 years of Software Engineering experience primarily focused on Backend development with Python and Native Android development with Kotlin/ Java.

Experience

Made by People

Consultant Android Developer

July 2025 - November 2025 (5 months)

Built the NIKO android app that digitizes the registration and assessment of children with disabilities in order to issue them with assistive devices from the project partners (UNICEF, AT4D, Kilimanjaro Blind Trust) and facilitate their evacuation in emergency situations.

Twiga Foods

Software Developer

November 2019 - June 2025 (5 years 8 months)

Nairobi

Worked across the stack, from porting the native android app from Java to Kotlin as well as on the backend microservices powering ecommerce and payments solutions targeting informal retailers. Integrated digital lenders onto the loan management system to facilitate SME micro-lending.

AkiraChix

Mobile Development Trainer

April 2019 - November 2024 (5 years 8 months)

Nairobi

Developing the android development curriculum, teaching, mentoring and assessment of students in Native Android Development part time.

iHub Software Consulting (iSC)

Android Developer

July 2018 - November 2019 (1 year 5 months)

Nairobi

Developing android apps for various clients including:

1. PCI International (Afriscout) https://play.google.com/store/apps/details?id=com.pci_afriscout&hl=en.

Afriscout is an app built for pastoralists to find green pastures using satellite maps.

2. Warchild Holland (My Voice) <https://play.google.com/store/apps/details?id=org.warchildholland.ssjr4>. My voice is a tool used by Warchild Holland to collect feedback on its activities in South Sudan

REFUNITE

Android Developer

November 2016 - June 2018 (1 year 8 months)

Nairobi

Developed the relay app, a peer to peer offline messaging app using ad-hoc p2p wifi networks for dense populations without internet access. Piloted at Kakuma refugee camp.

Caytree Partners

Software Developer

June 2015 - November 2016 (1 year 6 months)

Developing the Caytree Android App. An invoicing, sales and expense tracking app for SMEs

Moringa School

Student

March 2015 - June 2015 (4 months)

Nairobi

I learnt Android, Ruby on Rails and UX fundamentals

OgilvyOne Africa

Content Associate

April 2014 - March 2015 (1 year)

Nairobi

Education

University of Nairobi

Bachelor of Commerce (B.Com.), Business Information Systems · (2010 - 2014)
